Home Page:

The screenshot shows a web browser window for the InstaWash website. The URL in the address bar is vxa3922.uta.cloud/WDMProject_Phase4/. The page features a dark header with the InstaWash logo and navigation links for Home, About, Services, Contact, Blog, and Login. The main content area has a title "Welcome to InstaWash" and a subtitle "Get your clothes washed and delivered in no time". Below this, a paragraph describes the laundry services offered, mentioning washing, dry cleaning, pressing, and discounts for bulk orders. Two callout boxes are present: one on the left stating "We clean your clothes with utmost care." and another on the right stating "We follow the Customer Instructions with utmost care.". A "Chat with us" button is located on the right side of the main content area. The bottom of the screen shows a Windows taskbar with various pinned icons and system status.

About us :

The screenshot shows the "About Us" page of the InstaWash website. The URL in the address bar is vxa3922.uta.cloud/WDMProject_Phase4/about. The page has a dark header with the InstaWash logo and navigation links for Home, About, Services, Contact, Blog, and Login. The main content area features a large cartoon illustration of a green washing machine with a smiling face and arms, standing next to a speech bubble. To the right of the illustration, there is a block of text about the company's history and services. Below this text is a diagram showing two rectangular boxes connected by a vertical line: the top box is labeled "SERVICES" and the bottom box is labeled "CONTACT". The bottom of the screen shows a Windows taskbar with various pinned icons and system status.

Services

The screenshot shows a web browser window with multiple tabs open, including several cPanel-related tabs and MySQL. The main content is the 'Services' page for the InstaWash website. The page has a dark header with the logo and navigation links: Home, About, Services, Contact, Blog, Login.

The main area features a large 'SERVICES' heading. To the left, there's a box titled 'Manage equipment's'. To the right, there are two boxes: one titled 'Management of Customers /Personnel /Services' listing tasks like managing customer and personnel details, and another titled 'Management of Daily Tasks'.

At the bottom, a Windows taskbar is visible with various pinned icons and system status information.

Contact:

The screenshot shows the 'Contact' page for the InstaWash website. The layout includes a search bar at the top, followed by a header with the InstaWash logo and navigation links: Home, About, Services, Contact, Blog, Login.

The main content area features a 'Get in Touch with Us' section with a large 'CONTACT US' button. Below it, a message says 'Your laundry service provider is just a phone call away.'

On the left, there's a 'Phone No.' section with a phone icon and the number 1-2392-23928-2. On the right, there's an 'E-mail' section with an envelope icon and the address service@laundry.com.

At the bottom, there's an 'Address' section with a location pin icon and the text '1008 greek row Dr, Arlington TX, United States' and an 'Opening Hours' section with a clock icon and the text 'Monday - Friday (9:00 AM to 5:00 PM)'.

A Windows taskbar is visible at the very bottom.

Screenshot of a web browser showing a contact form for Instawash. The address is listed as 1008 greek row Dr, Arlington TX, United States. The opening hours are Monday - Friday (9:00 AM to 5:00 PM). The form includes fields for First Name, Last Name, E-mail, and Phone, along with a Message area and a SEND MESSAGE button. To the right of the form is a cartoon illustration of a person wearing a headset and working on a laptop, surrounded by various communication icons like email and phone.

Screenshot of a web browser showing an incoming email in Gmail. The subject is "Contacted through Instawash Website". The message is from "sxb4167@utacloud2.reclaimhosting.com" to the user. It contains the text: "Customer tried contacting to Instawash through website." and "Please find the details of the customer below." followed by the customer's information: First Name : sai rami rddy, Last Name : patapati, Email : santhoshbhattaram@gmail.com, Mobile : 9963634559, Email : santhoshbhattaram@gmail.com. At the bottom, there are "Reply" and "Forward" buttons. A message at the bottom of the inbox indicates "Message moved to Trash." and "2 New Messages Show Ignore".

Registration

The screenshot shows a web browser window with multiple tabs open at the top. The active tab displays a login form for 'Instawash'. The form is titled 'Login to your account' and contains fields for 'Username' and 'password', with a 'Submit' button below them. To the right of the login form is a section titled 'No Account?' with the sub-instruction 'Create a new account here'. This section includes fields for 'First name' ('sai rami rddy'), 'Last name' ('patapati'), 'Contact number' ('09963634559'), and 'Email' ('sairam.patapati1997@gmail.com'). Below these fields are two password fields, both marked with '.....'. Underneath the email field is a radio button group for 'User' (selected), 'Admin', 'Manager', and 'Visitor'. A large pink 'Sign up' button is positioned at the bottom of this section. The browser's address bar shows the URL `vxa3922.uta.cloud/WDMProject_Phase4/login`.

This screenshot is identical to the one above, showing the 'Instawash' login page. However, it includes a green success message at the bottom of the 'No Account?' section stating 'User has been created'. The rest of the interface, including the login form and account creation fields, remains the same.

Login

The screenshot shows a dual-panel interface. On the left, a modal window titled "Login to your account" contains fields for "Email" (admin@instawash.com) and "Password" (redacted), with a "Submit" button below it. A red error message "Please enter valid credentials" is displayed. On the right, a "No Account?" section prompts users to "Create a new account here" with fields for "First name", "Last name", "Contact number", "Email", "Password", and "Confirm Password". Below these is a radio button group for "User" (selected), "Admin", "Manager", or "Visitor", followed by a "Sign up" button. A green success message "User has been created" is shown at the bottom.

Admin- Dashboard:

The screenshot displays the InstaWash Admin Dashboard. The left sidebar includes links for "Dashboard", "Manage", "Reports", and "Log out". The main area features four summary cards: "Total Order" (17), "Equipments" (16), "Orders Pending" (17), and "Total Profit" (\$5450). Below these are sections for "Recent Orders" (listing order IDs 21, 20, 19, 23, 24, 25 with customer IDs 126, 124, 123, 126, 123, 123 and status Inprogress) and "Upcoming Orders" (listing order IDs 26, 27, 28 with customer IDs 123, 123, 123 and status Inprogress). A "Chat with us" button is located in the bottom right corner.

Admin- Manage:

The screenshot shows the Admin-Manage interface for InstaWash. The left sidebar has links for Dashboard, Manage, Reports, and Log out. The main area has four sections: Manage Orders (listing Order id, Customer id, and Type), Manage Equipment (listing Equipment id, Equipment Name, and Equipment Type), a Manual Order form with fields for Customer ID, Quantity, and comments, and a Manage Tasks section (listing Task id, Personnel id, Order id, and Status). A 'Chat with us' button is visible in the tasks section.

Order id	Customer id	Type

User :

The screenshot shows the User Dashboard for InstaWash. On the left is a dark sidebar with navigation links: Dashboard, Schedule for pickup, Orders, Complain, and Log out. The main area has a title 'Dashboard' and a section titled 'Order Details'. It displays a table of order information:

Order id	Customer id	Type	Status	Quantity	Assigned to
8	123	Drying	Inprogress	12	503
9	123	Drying	Inprogress	12	504
10	123	Drying	Inprogress	123	505
11	123	Washing	Inprogress	12	506
12	123	Washing	Inprogress	12	507
13	123	Drying	Inprogress	20	508

Below this is a 'New Order' form with fields for Customer ID, Quantity, Service, and comments, along with a 'Chat with us' button.

The screenshot shows the User Orders page for InstaWash. The sidebar is identical to the dashboard. The main area has a title 'Dashboard' and a section titled 'Schedule for pickup'. It displays a form with fields for Order Id, Pickup date, and Comments, with a 'Save' button.

The screenshot shows a Windows desktop environment with a web browser window open to the URL vxa3922.uta.cloud/WDMProject_Phase4/UserOrders. The browser title bar indicates there are 13 tabs open. The main content area displays the InstaWash application's 'Dashboard'. On the left, a sidebar menu includes 'Dashboard', 'Schedule for pickup' (which is currently selected), 'Orders', 'Complain', and 'Log out'. The main panel is titled 'Schedule for pickup' and contains fields for 'Order Id' (with placeholder 'Order Id') and 'Comments' (with placeholder 'comments'). Below these is a date input field labeled 'Pickup date:' with a placeholder 'mm/dd/yyyy' and a calendar icon. A large black 'Save' button is at the bottom right. A green success message 'Pickup Updated' is displayed below the form.

This screenshot shows the same Windows desktop environment and browser setup as the previous one. The main content area now displays the 'Order Details' section of the InstaWash application. It features a table with columns: Status, Quantity, Assigned to, TypeOfDelivery, and Delivery Date. Six rows of data are listed:

Status	Quantity	Assigned to	TypeOfDelivery	Delivery Date
Inprogress	12	503	Pickup	2021-11-19
Inprogress	12	504	Pickup	2021-11-26
Inprogress	123	505	Pickup	2021-11-25
Inprogress	12	506		
Inprogress	12	507		
Inprogress	20	508		

Below the table is a 'New Order' form with fields for 'Customer ID', 'Quantity', and 'Service'. To the right of the form is a 'Chat with us' button. The system tray at the bottom shows the date and time as 11:26 PM on 11/21/2021.

Register Incident:

This screenshot shows the 'Report an Incident' section of the InstaWash application. On the left, a sidebar menu includes 'Dashboard', 'Schedule for pickup', 'Orders', 'Complain' (which is selected), and 'Log out'. The main area has a title 'Report an Incident' and three input fields: 'Washing Order' containing '123', 'Fabric Damaged' (empty), and a large text area for comments. A 'Report an Incident' button is at the bottom. A 'Chat with us' button is located on the right side of the page. The browser address bar shows 'vxa3922.uta.cloud/WDMProject_Phase4/Complain'. The Windows taskbar at the bottom displays various icons and the date/time '11/21/2021 11:27 PM'.

Visitor:

This screenshot shows the 'Schedule Drop Off' section of the InstaWash application for visitors. The sidebar menu is identical to the previous screen. The main area has a title 'Schedule Drop Off' and four input fields: 'Order Id' (empty), 'Address' (empty), 'Drop off' (set to 'mm/dd/yyyy'), and a 'Save' button. A 'comments' text area is also present. A 'Chat with us' button is located on the right side. The browser address bar shows 'vxa3922.uta.cloud/WDMProject_Phase4/VisitorDashboard'. The Windows taskbar at the bottom displays various icons and the date/time '11/21/2021 11:28 PM'.

The screenshot shows the InstaWash application running on a Windows operating system. The browser window title is "vxa3922.uta.cloud/WDMPProject_Phase4/VisitorOrder". The dashboard has a dark sidebar with "InstaWash" logo and links for Dashboard, Drop off, Orders, Complain, and Log out. The main area displays "Order Details" with two rows:

Order id	Customer id	Type	Status	Quantity	Assigned to
21	126	Washing	Inprogress	20	516
23	126	Drying	Inprogress	21	517

Below this is a "New Order" form with fields for Quantity and Service, and a comments section. A "Chat with us" button is visible. The Windows taskbar at the bottom shows various pinned icons.

The screenshot shows the InstaWash application running on a Windows operating system. The browser window title is "vxa3922.uta.cloud/WDMPProject_Phase4/Dropoff". The dashboard has a dark sidebar with "InstaWash" logo and links for Dashboard, Drop off, Orders, Complain, and Log out. The main area displays a "Schedule Drop Off" form with fields for Order Id (20), Drop off date (11/24/2021), and Address, along with an "Edit" link and a "Save" button. A "Chat with us" button is visible. The Windows taskbar at the bottom shows various pinned icons.

Visitor -Drop Off:

The screenshot shows a web browser window with the URL vxa3922.uta.cloud/WDMProject_Phase4/Dropoff. The page title is "Dashboard". On the left, a sidebar menu includes "Dashboard", "Drop off", "Orders", "Complain", and "Log out". The main content area is titled "Schedule Drop Off" and contains fields for "Order Id" (with placeholder "Order Id"), "Address" (with placeholder "mm/dd/yyyy"), and a "Save" button. A green message at the bottom says "Delivery Updated". A "Chat with us" button is located in the bottom right corner. The browser's address bar shows multiple tabs related to cPanel and MySQL, and the system tray indicates it's 11:29 PM on 11/21/2021.

Visitor – Complain

The screenshot shows a web browser window with the URL vxa3922.uta.cloud/WDMProject_Phase4/Complain. The page title is "Dashboard". The sidebar menu is identical to the previous screen. The main content area is titled "Report an Incident" and contains three input fields: "Washing" (containing "21"), "Issue with fabric" (containing "Issue with fabric"), and a "Report an Incident" button. A "Chat with us" button is located in the bottom right corner. The browser's address bar and system tray are identical to the previous screenshot.

The screenshot shows a web browser window with the URL vxa3922.uta.cloud/WDMProject_Phase4/Complain. The page title is "Dashboard". On the left, there is a sidebar with the "InstaWash" logo and navigation links: Dashboard, Drop off, Orders, Complain, and Log out. The main content area has a heading "Report an Incident" and three input fields: "IncidentType", "Order", and "Comment". Below these is a "Report an Incident" button. A green message "Registered Complaint" is displayed below the form. In the bottom right corner of the main area, there is a "Chat with us" button. The status bar at the bottom shows the Windows taskbar with various icons and the date/time 11/21/2021 11:31 PM.

Manager - dashboard:

The screenshot shows a web browser window with the URL vxa3922.uta.cloud/WDMProject_Phase4/ManageDashboard. The page title is "Dashboard". The sidebar on the left includes the "InstaWash" logo and navigation links: Dashboard, Manage, and Log out. The main content area is divided into several sections: "Manage Orders" (listing Order id 8, 9, 10, 11, 12, and 13), "Manage Equipment" (listing Equipment id 301 through 312), "Manual Order" (with fields for Customer ID and Quantity), and "Manage Tasks" (listing Task id 1, 2, and 3 with Personnel id 503, 504, and 505, Order id 8, 9, and 10, and Status Inprogress). A "Chat with us" button is located in the "Manage Tasks" section. The status bar at the bottom shows the Windows taskbar with various icons and the date/time 11/21/2021 11:31 PM.

Manger- Edit:

The screenshot shows the InstaWash Manager-Edit dashboard. The left sidebar has links for Dashboard, Manage, and Log out. The main area has four sections: Manage Orders, Manage Equipment, Manual Order, and Manage Tasks.

Blog page:

The screenshot shows a web browser window with the URL vxa3922.uta.cloud/WDMProject_Phase4/blog. The page title is "InstaWash". Below the title, there is a link "Direct link for WordPress Blog" and the heading "Disadvantages of InstaWash". A sub-section titled "Number of Competitors:" is present, with a note about maintaining price parity with competitors. Below this is a large image of three wooden blocks with the words "KNOW", "YOUR", and "COMPETITORS" stacked together.

Need of strategic location:

Laundry business site must be in a strategic area. Urban housing, boarding houses, rental residences, and educational centers such as campuses and schools are all strategic locations for running this business.

It does not require large capital investment except for procuring the equipment, which can be returned easily if business is setup in the prime location.

This screenshot shows the same blog page as above, but the "Number of Competitors:" section is no longer visible. The "Need of strategic location:" section is now the primary content. It includes the same descriptive text and the image of the city skyline with location pins.

Need of strategic location:

Laundry business site must be in a strategic area. Urban housing, boarding houses, rental residences, and educational centers such as campuses and schools are all strategic locations for running this business.

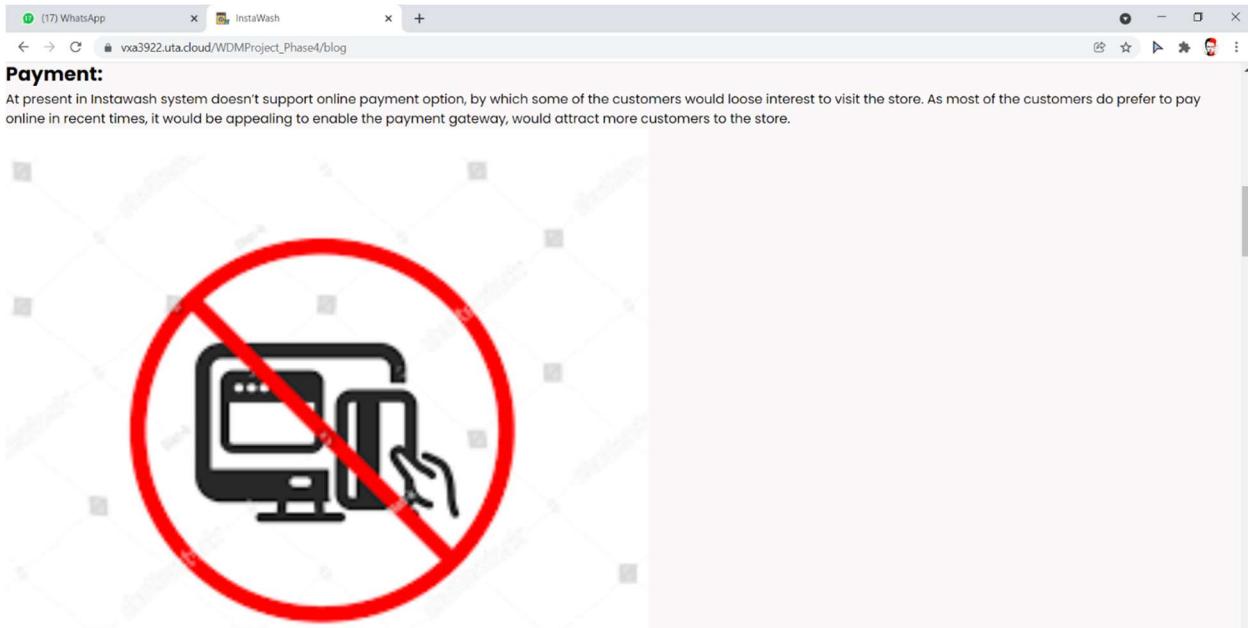

It does not require large capital investment except for procuring the equipment, which can be returned easily if business is setup in the prime location.

Payment:

At present in Instawash system doesn't support online payment option, by which some of the customers would loose interest to visit the store. As most of the customers do prefer to pay online in recent times, it would be appealing to enable the payment gateway, would attract more customers to the store.

This screenshot shows the blog page again, focusing on the "Payment" section. The descriptive text and the image of the city with location pins are present here.

Streamline Laundry Services:
Instawash system gives an advantage of keeping track of each cleaning process, equipment status and employee assigned for the service, by which the process would become much easier to track. Instawash system allows real-time sorting, laundry, and/or dry cleaning monitoring, as well as pressing, folding and distribution. End to end service process can be streamlined and make easy to keep track.

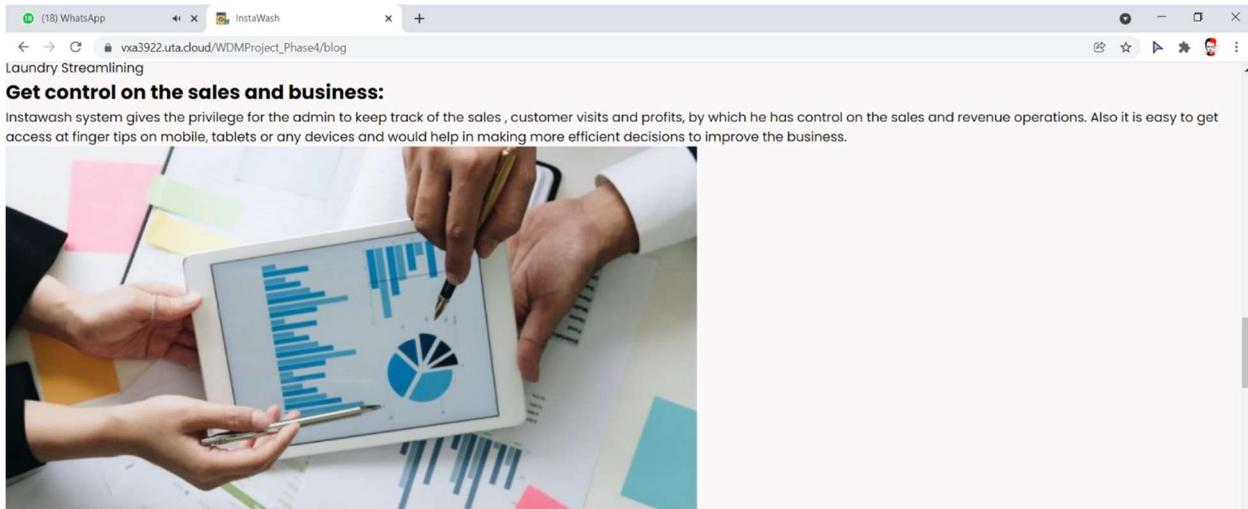

Laundry Streamlining

Get control on the sales and business:

Instawash system gives the privilege for the admin to keep track of the sales , customer visits and profits, by which he has control on the sales and revenue operations. Also it is easy to get access at finger tips on mobile, tablets or any devices and would help in making more efficient decisions to improve the business.

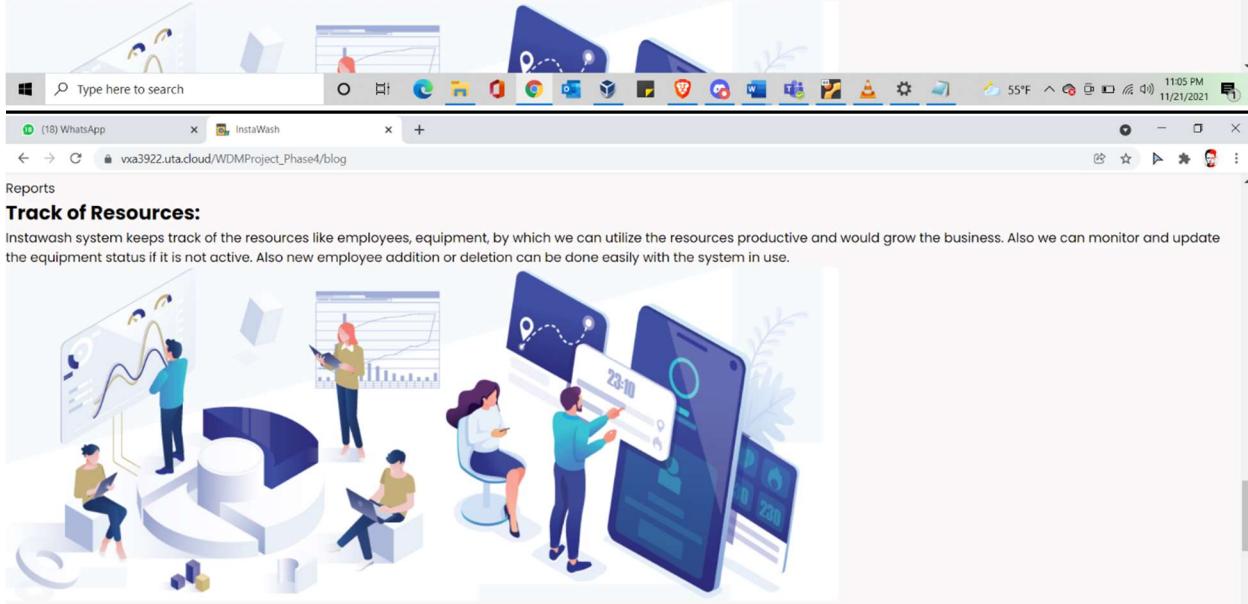

Reports

Track of Resources:

Instawash system keeps track of the resources like employees, equipment, by which we can utilize the resources productive and would grow the business. Also we can monitor and update the equipment status if it is not active. Also new employee addition or deletion can be done easily with the system in use.

Track Employee

Improvements Can be Made in Future

Enabling Internet of Things

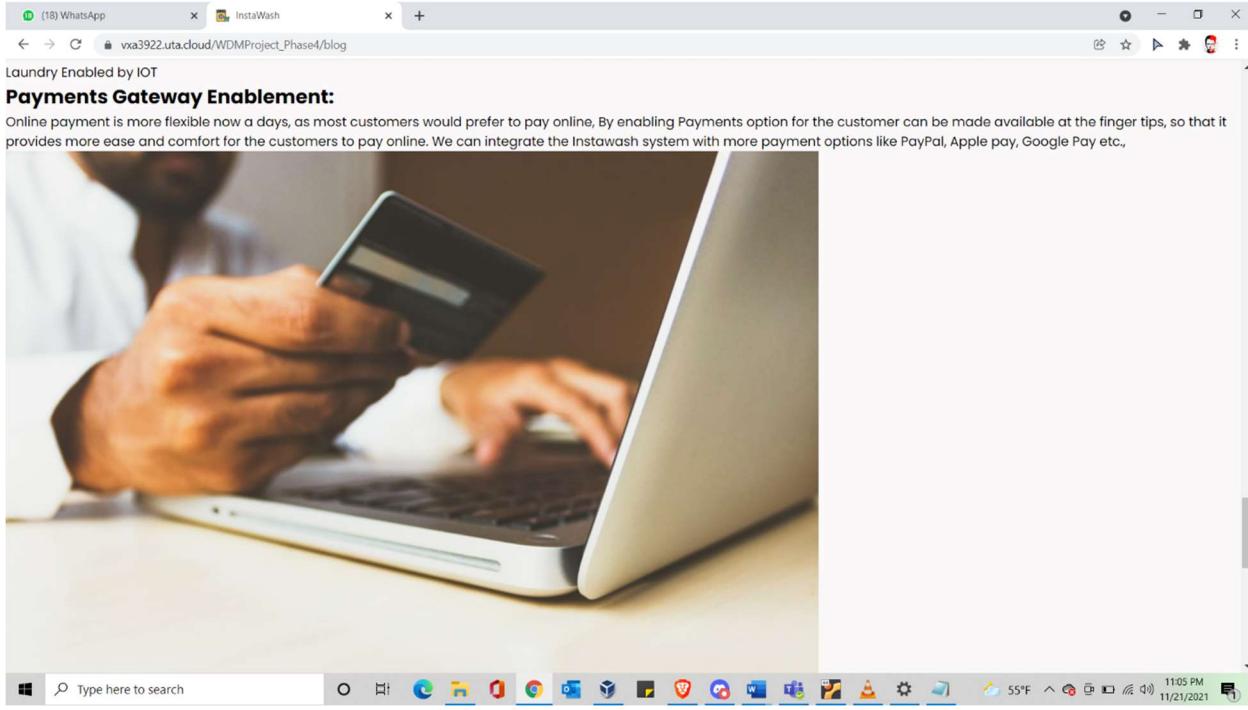

IOT is a unique opportunity to help us connect to people with their laundry machines in a way that will help to save time and make life more convenient, at present the laundry status is marked and updated by the staff. By enabling the IOT to these machines makes it easier to connect with customers directly by sending them the notifications directly to their mobile or email. Even the staff can reduce their efforts and directly check the status of the machines updated in the portal for usage.

Enabling Internet of Things

IOT is a unique opportunity to help us connect to people with their laundry machines in a way that will help to save time and make life more convenient, at present the laundry status is marked and updated by the staff. By enabling the IOT to these machines makes it easier to connect with customers directly by sending them the notifications directly to their mobile or email. Even the staff can reduce their efforts and directly check the status of the machines updated in the portal for usage.

Payments Gateway Enablement:

Online payment is more flexible now a days, as most customers would prefer to pay online. By enabling Payments option for the customer can be made available at the finger tips, so that it provides more ease and comfort for the customers to pay online. We can integrate the Instawash system with more payment options like PayPal, Apple pay, Google Pay etc.,

Online Payment

Reward Credits/Loyalty points:

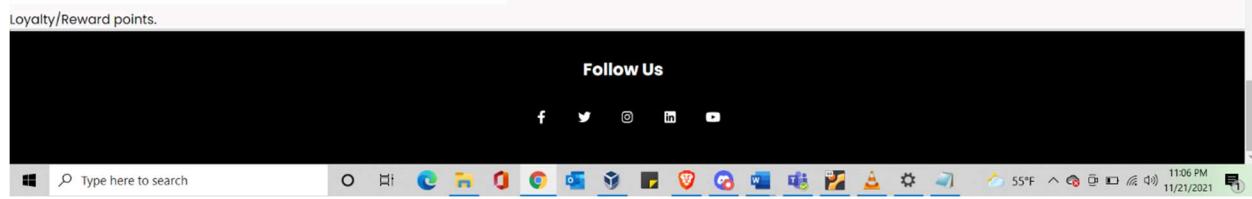

More customers would be attracted for discounts or deals on the orders, so rewarding the loyalty or credit points for the customers would help in growth of the business. So for each order they make rewards would be credited to their wallet and they can be redeemed for their next orders. Also additional discount rates can be made available for the customers based on their credits/loyalty points. This strategy was widely used in present business line to boost their business.

Earn points Get reward
